(*d*) Agricultural labour is being paid in paddy. The alleged increased cost of labour will come in only if payment is made in cash. Paddy required for payment in kind is allowed to be retained with the cultivator. The price of paddy so paid has also increased about 4 times the pre-war rates. In the circumstances the quantity allowed under this item cannot be considered inadequate.

(*e*) The rates for agricultural labour varies from 3 to 10 Edangalis of paddy per head per day according to nature of work.
